

## THE GAZETTE.

WEDNESDAY EVENING, MAY 10.

**MISCELLANEOUS ITEMS.**—The Chicago papers announce that the grave of Douglas is to be sold for taxes. It appears, in a communication from the City Collector to the Councils, that an assessment of \$2,200 for improvements had been made upon the ground where the grave of Douglas is located. The collector stated that the assessment was made upon the ground where the grave of Douglas is located, and that the assessment was made upon the ground where the grave of Douglas is located, and that the assessment was made upon the ground where the grave of Douglas is located.

The Tie meter, which was selected by the late commissioner of revenue for use by all the distillers of the country, and which that class of manufacturers were required to supply themselves with at a total cost of over \$700,000, runs out to be totally useless for the purposes it was intended to accomplish, and is to be discontinued altogether, and hereafter no spirit meters are to be used.

The contract for making the paper for the new internal revenue adhesive stamps has been awarded to James W. Wilcox & Co. of Philadelphia. The paper is to be tinted, so that any attempt to remove the cancellation of the stamp will destroy the original color of the paper. It will also have a blue fibre running through it.

**JUNIUS.**—The April No. of the London Quarterly Review, as we learn from the New York Times, has an article from Mr. Twissleton on the authorship of Junius which very clearly settles the question, and decides that Sir Philip Francis was Junius. The literary world had pretty well settled down upon the conclusion that Sir Philip was the man. Experts have been engaged for some time past in examining manuscripts, and the result is the accumulation of an amount and force of testimony that leaves no doubt of the fact. The two most distinguished experts in chirography in London, Messrs. Chabot and Netherfield, have devoted much time to the subject, and it has been mainly through their labors that this testimony has been completed and thus conclusively presented. —*Richmond Dispatch.*

**ELEGANT HAIR** adds a charm to the plainest face, but when faded, features before agreeable lose their comeliness, and the whole expression is that of advancing age. This being a fact, it is not surprising that even injurious dyes should have been prepared to supply the millions who wish to avoid premature gray hair. Under these circumstances it will scarcely be wondered at that NATTANS CRYSTAL DISCOVERY should have met with such extraordinary success.

It is the only preparation furnishing a safe and reliable restorer for the hair; absolutely free from all poisonous and deleterious matter and without sediment, and thousands above thousands have restored themselves of it, not simply because it restores the color of the hair, but because it supplies nourishment. It feeds the roots of the hair, so that where decayed it becomes vigorous and healthy again. From all sections of the country orders and testimonials are received daily, speaking in the highest terms of its qualities as the only preparation that ever gave entire satisfaction. Those who have used CRYSTAL DISCOVERY will not use anything else; but to those who have not tried this excellent article it is recommended that when they are again in want of something of the kind to give it a trial; you will be more than pleased you will be delighted with it, and will never again be without it. Don't let your druggist, if he has not got CRYSTAL DISCOVERY persuade you to buy something else, or you will be disappointed; rather go where you can get it put up in large bottles, containing half as much more as any other in market and, consequently, much the cheapest. Price one dollar. For sale by WAREFIELD & HALL, and druggists generally. ap 18—edsdwy
